

Kyalo Muoki

Born 9th of March 1993 • bonny.moki@gmail.com • +254740857767

INTRO

I am a full stack Software Developer with skills in technical leadership, communication and presentations. Experienced in full project life cycle from design to implementation to integration. Expert in diverse programming languages, including PHP & its MVC frameworks (Laravel and CodeIgniter), JavaScript (JQuery and React JS), .

WORK EXPERIENCE

Senior Software developer

PROWIZ TECHNOLOGIES • Mar 2020 – Present

I have been the sole developer of the following web applications

1. signal.com - property valuation document signing. I was using codeigniter, JQuery and Mysql.
2. Mortgagekenya.com - marketplace with both backend and frontend. I was using codeigniter, JQuery and Mysql.
3. valuationkenya.com - valuation report submission platform to lenders. I was using Laravel 9 for the API, React Js and MUI, docker and github actions.

Lead Software Developer

Dukapepe Ltd • Sep 2017 – Present

These have been my Tasks:-

1. Development and testing of Restful APIs in laravel and codeigniter.
2. Managing and improving existing mobile and web applications in Android.
3. Developing Function Specification documents for new changes and solutions.
4. Managing code and databases on AWS.
5. Deployment and testing of the specific applications.
6. Software Project Management using Jira.
7. User Training.
8. Design of Dukapepe Scalable and secure architecture on AWS.
9. MySQL Database management on AWS RDS.
10. CI/CD implementation with codedeploy, Bitbucket and EC2 clients on AWS.
